

Schedule Function Fields

Updated Jul 13, 2021

As of July 12, 2021, this "Learn Veracross" site has been deprecated. It will remain live at least through October 1, 2021, but will no longer be updated. All knowledge content has moved to the new [Veracross Community](#). Please update your bookmarks.

[Here is the new version of this article in the Veracross Community.](#)

Overview

Schedule function fields aggregate information related to class enrollments and schedules. The schedule function fields can be used to show which classes students are enrolled in for the whole year,

for certain grading periods, which sports they are playing and when, etc. The schedule-related function fields can help determine when students and teachers are busy or free throughout the week.

[Read more about function fields.](#)
