

Can I create an anchor link in a Composer message?

Updated Jul 14, 2021

As of July 12, 2021, this "Learn Veracross" site has been deprecated. It will remain live at least through October 1, 2021, but will no longer be updated. Q&A articles are only visible to authenticated users in the Veracross Community; please speak with your implementation or account manager for additional information.

Anchor links are often used to create links to specific sections of both internal and external pages. For particularly long composer messages, you may try to create links to other specific parts of the message.

An example of a composer message. Because of the way a Composer message is crafted, it is not possible to expose the underlying HTML.

Unfortunately, that functionality is not possible at this time due to the fact that there is no way to expose the underlying HTML to insert an anchor link.
