

How can I hide a payment plan from the ORE/OE Portal?

Updated Jul 16, 2021

As of July 12, 2021, this "Learn Veracross" site has been deprecated. It will remain live at least through October 1, 2021, but will no longer be updated. Q&A articles are only visible to authenticated users in the Veracross Community; please speak with your implementation or account manager for additional information.

If there is a payment plan that you no longer want to show on the Enrollment Contract as an option for the Parents to choose from, remove the text in the Web Description (Required) field. When this field is blank, the plan will be hidden from the portal.

The payment plan will still be available in the backend as this action does not delete it, just removes it from view in the contract.
