

Do schools have the ability to add enrollment levels?

Updated Jul 14, 2021

As of July 12, 2021, this "Learn Veracross" site has been deprecated. It will remain live at least through October 1, 2021, but will no longer be updated. Q&A articles are only visible to authenticated users in the Veracross Community; please speak with your implementation or account manager for additional information.

The screenshot shows a web application interface for a client. At the top, there is a navigation bar with the text "DEMO: CLIENT" on the left and "vc.client" on the right. The main header area contains a search icon, a star icon, a search input field with the text "System Enrollment Levels", and several action buttons: "Design", "Run Query" (in green), a lightning bolt icon, a plus sign, a refresh icon, a grid icon, and a help icon. Below the header is a table with the following columns: "ID", "Description", "Course Prefix", "Course Suffix", and "Available For Request". The table contains 8 rows of data, each with a checkbox in the "ID" column and a checkmark in the "Available For Request" column. The bottom right corner of the table area shows "8 records".

ID	Description	Course Prefix	Course Suffix	Available For Request
