

If a course request is submitted with the ALL Grading Period will Scheduler be able to identify the actual grading period?

Updated Jul 15, 2021

As of July 12, 2021, this "Learn Veracross" site has been deprecated. It will remain live at least through October 1, 2021, but will no longer be updated. Q&A articles are only visible to authenticated users in the Veracross Community; please speak with your implementation or account manager for additional information.

When a new course request is submitted, the default Grading Period is set to "All" and the scheduler recognizes the actual grading period based on the configuration of the class when the request is submitted. The course request is not updated to reflect the grading period for the class but can be manually overridden as needed.

More information about this can be found in [our documentation here](#).
