The course type that a class is associated with determines what record detail it has. If you find that the class/team/activity record is missing certain fields, you can try running [the Find Program Classes query](#) from [the Other Programs homepage](#) and accessing the course record through those query results.

This default query includes specific fields necessary for configuring program classes, such as:

- Program Registration Availability Method
- Program Enrollment Strategy
- Minimum Grade Level
- Maximum Grade Level
- Max Students

- Fee
-
