

Who can impersonate a user with the SysAdmin security role?

Updated Jul 13, 2021

As of July 12, 2021, this "Learn Veracross" site has been deprecated. It will remain live at least through October 1, 2021, but will no longer be updated. Q&A articles are only visible to authenticated users in the Veracross Community; please speak with your Implementation or Account Manager for additional information.

There is not a security role that can impersonate a SysAdmin and SysAdmins cannot impersonate each other. This is done due to the very open security permissions surrounding the SysAdmin security roles.
