

# I ran the “Copy Current Student FA Applications” procedure, but it said only a few (or zero) records were affected. Why weren’t all students’ FA applications copied?

Updated Jul 16, 2021

As of July 12, 2021, this "Learn Veracross" site has been deprecated. It will remain live at least through October 1, 2021, but will no longer be updated. Q&A articles are only visible to authenticated users in the Veracross Community; please speak with your implementation or account manager for additional information.

The “Copy Current Student FA Applications” procedures only copy FA applications that have an Application Status of “Accepted.”

The intended workflow is that most or all Financial Aid applications are eventually updated to have an Application Status of “Offered” when OE/ORE begins. The system automatically updates the application status from “Offered” to “Accepted” once a student completes the (re-)enrollment process. If this workflow is followed, then running the “Copy FA Applications” procedure copies the expected number of FA applications.

For more details about this workflow, please see the Financial Aid Process Management documentation article [here](#).
