Updated Jul 22, 2021

As of July 12, 2021, this "Learn Veracross" site has been deprecated. It will remain live at least through October 1, 2021, but will no longer be updated. All Veracross Product Recent updates have been migrated to the [Product Updates](#) section of the [Veracross Community](#). Please update your bookmarks.

VERACROSS CLIENT DIGEST

February 2021

In This Issue

New Blog Post | Recent Updates | Upcoming Webinars

Dear,

This month in the Client Digest, we highlight new content, product enhancements, and upcoming webinars all designed to help you extend the value of your Veracross software.

And as always, we'd love to hear your suggestions for new content and topics that you want to hear about! [Click here](#) to send us your ideas!

Sincerely,
Jessica Wallis
Vice President of Product Management

New Blog Post

Has COVID-19 changed admissions forever?

Yes and no.

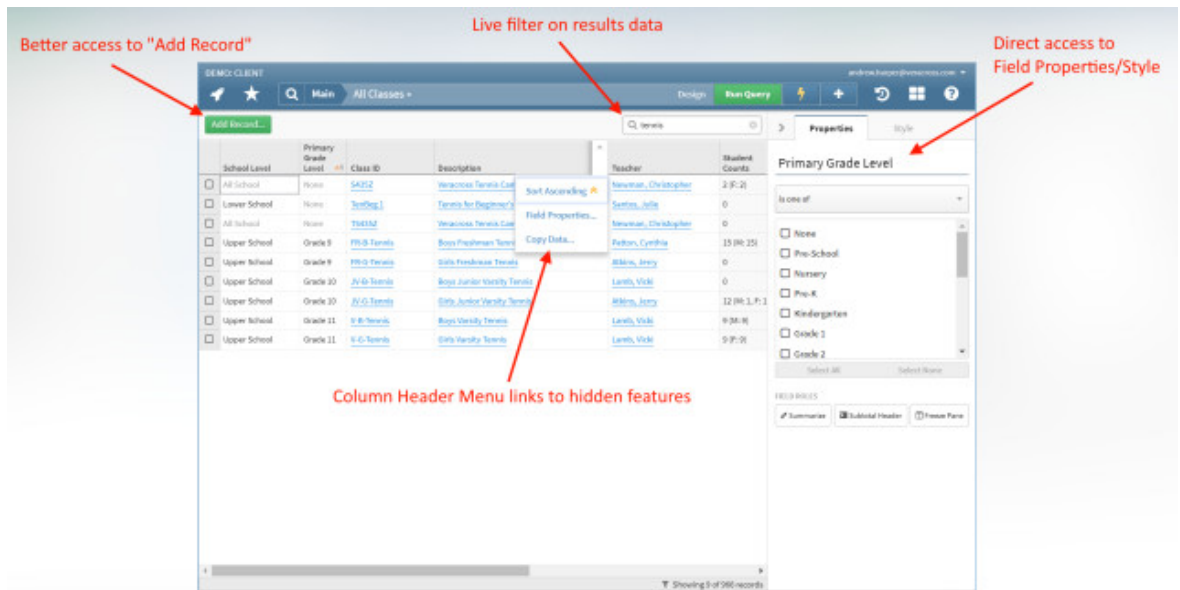

Our new post explains how, and shares some practical next steps and creative solutions to new challenges.

Recent Product Update Highlights

Check out these recent enhancements that help you extend the value of your Veracross software.

New Query Results Page Features

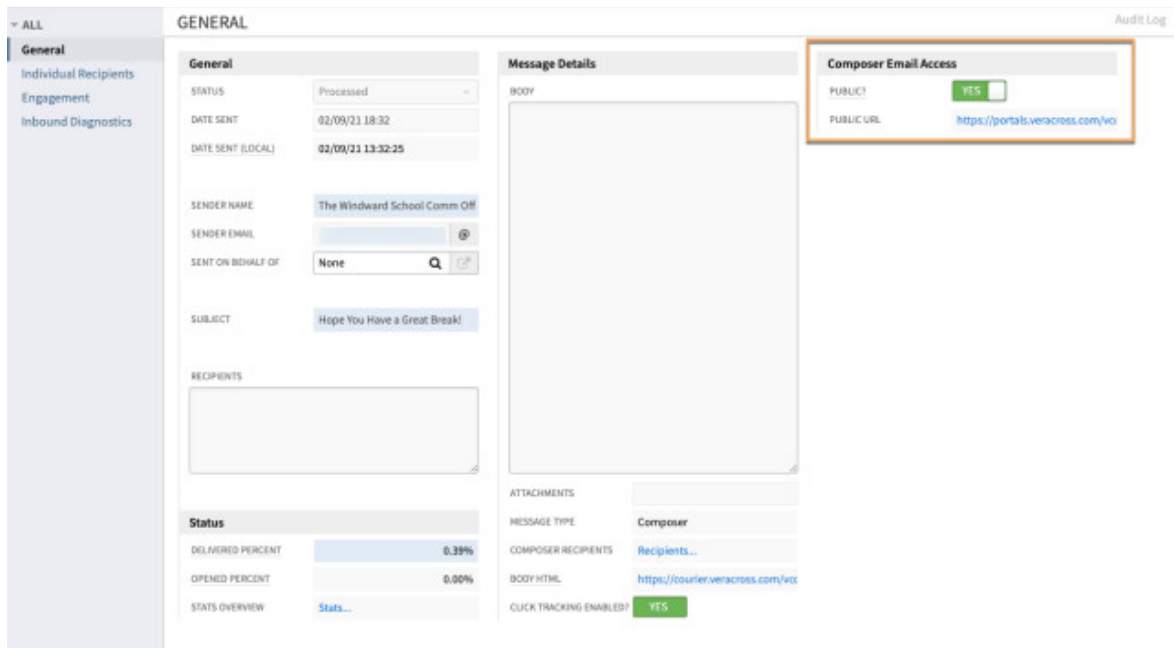

We added several customer-requested enhancements that make it easier than ever to interact with the data in your Axiom query results screens. And you can do it all without having to navigate to a different page!

[Create Public URLs For Sent Composer Emails](#)

You can now create and share a durable public link to sent Composer emails, giving you the ability to create public versions of emails that you can then put into resources pages, emails, etc., extending the value of your Composer emails. You can toggle the public URL of individual emails on and off as needed.

Resend Failed System Emails

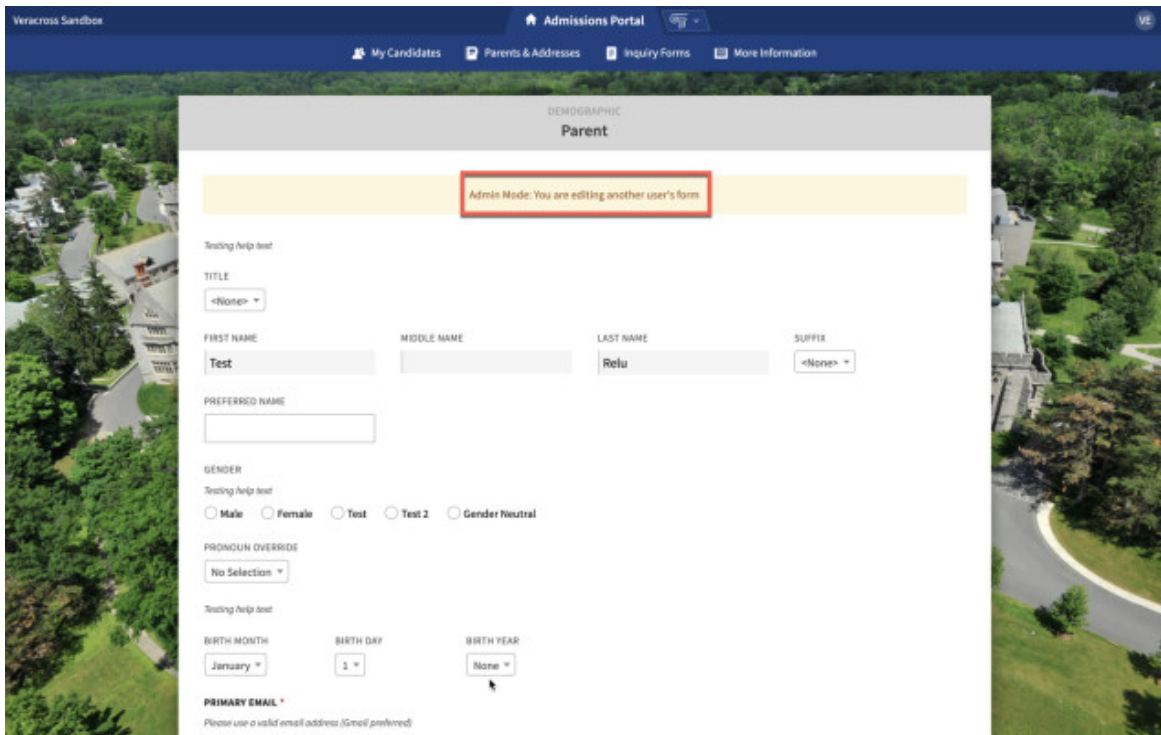

Occasionally, automated system emails — such as behavior incident notifications, attendance notifications, enrollment complete emails, etc. — may fail to process successfully. Though this is rare, you can now review any recently failed system emails and determine on a per-email basis which ones should be reprocessed.

Admission Portal 3: Edit Form Submission Errors

It is now possible to correct AP3 form submission errors in Axiom using the new Admin Edit URL. This URL gives you the ability to see a form exactly as a parent submitted it and correct the response that created the error to successfully process the submission. This release was part of our ongoing effort to reduce the likelihood of AP3 submission errors occurring and give you better tools to resolve them when they do.

Upcoming Webinars

CV-19 Immunization Tracking Webinar

March 4, 2021, 01:00 PM Eastern Time

From our friends at Magnus:

In just 30 minutes, we'll demonstrate how Magnus Health software gives you full immunization compliance capabilities for faculty, staff, and students, along with digital tracking of requirements, exemption, and waivers. Here are just a few ways we can help you manage immunization compliance:

- Automated parent email reminders notify student families regarding immunization requirements and approaching deadlines.
- Parents can upload immunization records / waivers directly into their student's account by taking a picture of the form using their mobile devices.
- Schools can access a complete immunization history for each student online as well as set upcoming deadlines.
- Staff can easily generate real-time immunization compliance reports with the Magnus reporting tool.

Best Practices for Implementing New Software at Your School

March 11, 2021 01:00 PM Eastern Time

Whether it be a new student information system, learning management system, or any other major software system, implementing a new solution requires thoughtful planning and strategic change management. The webinar will cover strategies for:

- Change management
- Managing the vendor relationship
- Communication with key stakeholders
